

## Substance Abuse

---

People who have experienced a brain injury or other cognitive problem may self-medicate through the use/abuse of alcohol or other drugs. The following list contains support for people who are overcoming their addictions. It is also recommended that people who are abusing substances visit a psychologist/neuropsychologist to determine whether the substance abuse is indeed a result of self-medication.

Oxford House, Inc. exists to educate individuals and private and public entities in the benefits of the Oxford House concept of group homes for recovering substance abusers. It allocates all resources, including grant funds, property donations, and available personnel, to replicate democratically self-run and self-supported Oxford Houses to assist in the recovery of substance abusers.

Oxford House is a concept in recovery from drug and alcohol addiction. In its simplest form, an Oxford House describes a democratically run, self-supporting and drug free home. Parallel to this concept lies the organizational structure of Oxford House, Inc. This publicly supported, non-profit 501(c)3 corporation is the umbrella organization which provides the network connecting all Oxford Houses and allocates resources to duplicate the Oxford House concept where needs arise.
