

A Salute to Certified Brain Injury Specialists (CBIS) in NC

The Brain Injury Association of North Carolina has been providing CBIS trainings across the state for professionals working with brain injury survivors. The ACBIS certification program is based on the belief that well trained staff is necessary to provide the wide array of care required in brain injury services. A special thanks to all CBIS staff in NC.

Here is a list of the people who have completed the certification in a class by the BIANC, with Susan Fewell and Vickie Pennington as trainers in 2007-09. Some hospitals, such as Carolinas Rehabilitation and WakeMed, have their own CBIS Trainers. If you would like to sign up or have BIANC come to your area for other training needs, call us at 800-377-1464.
