Did you know?	***With your gift, we are able to …***
Over 196,000 individuals in NC, and their families, are living with the challenges of brain injury.	Provide resources, support, and materials for individuals and families living with brain injury.
Falls are the leading cause of traumatic brain injury. Motor vehicle accidents are second.	Maintain resource offices within rehabilitation hospitals and veteran centers
There are 300,000 sports-related concussions in the U.S. each year. Protect your brain in every game with appropriate safety equipment.	Conduct trainings for local healthcare and support organizations that serve individuals with brain injuries
Brain injury is one of the signature combat wounds of the war in Iraq and Afghanistan. NC has the 4th highest active military population in the nation.	Distribute materials on concussions and protocols for concussion management in schools and the community
There are 5 times as many people living with TBI as the number of people living with breast cancer, Multiple Sclerosis, and HIV combined.	Facilitate annual camp retreats and regional activities
	Offer technical assistance to assist with the development of transition and rehabilitative services for veterans, service members, and their families
