

# Corporate Membership

Joining the Brain Injury Association of North Carolina as a corporate member will allow individuals living with brain injury and their families to live full and happy lives with the appropriate connections and support. With your help and collaboration, we can continue the invaluable work of providing hope to North Carolina families impacted by brain injury through education, outreach, awareness, prevention, and advocacy. In addition to membership listed benefits, you have many other opportunities to further your company/organization and the brain injury community:

**Networking with others**, sharing useful information, & engaging in training activities.

**Accessing resource guidance** and connecting with local support groups

**Aiding in bringing people together** due to what makes us all similar rather than different.

**Helping in advocacy efforts & participating in surveys** to better target services.

**Giving recognition and exposure** to your organization while connecting people with help.

## Testimonials

Brain Injury Association of North Carolina has served as a lifeline for our family for years. The love, support, and resources they offer our family are incredible, and there are really not enough words to thank them...

Whether you are a brain injury survivor, or a caretaker, there are countless benefits and joys to be found by being a part of the Association.

JENNY KORNEGAY,  
FAMILY MEMBER

I am new to the area but this was my go-to organization for finding care for ongoing efforts to deal with a brain injury. They answered my questions and pointed me to people who can truly help.

BILL MACDONALD,  
SURVIVOR

"Great perspective-taking opportunity..."

"I just hope more people have this training opportunity..."

"It was very effective, great workshop.."

TRAINING PARTICIPANTS

"I am so happy to have found this site. I developed a TBI in 2018 due to an injury at work... I was forced to return to work and terminated for points I received AFTER the injury... I have been sitting home for over a month crying, angry, confused and lost, unable to continue treatment... I reached out to the Association and they are assisting me with resources to help me find treatment. I am so THANKFUL for this organization."

ROBIN STONE EDWARDS,  
SURVIVOR
