

## VISION SPECIALISTS

The providers listed consist of optometrists, ophthalmologists, neuro-ophthalmologists, and neuro-optometrist. Optometrists examine, diagnose, and treat disease and injuries to the visual system. Ophthalmologists specialize in medical and surgical care of the eyes. Neuro-ophthalmologists treat the nervous system of the eyes, including disease associated with the optic nerve and unexplained visual difficulties. Neuro-optometrists address the underlying vision conditions that can cause blurred vision, double vision, headaches, eyestrain, visual fatigue, tracking difficulties, balance dysfunction, and challenges with processing.
